CILHER'S LARGE MAP OF CALIFORNIA
LIFERING MA

WEBSTER'S WORKS .- Sixth Edition.

The Speeches, Forencie Arguments, and Diplomatic Papers of DANIEL WEBSTER; with a Notice of his Life and Works, by Edward Everners. In 6 vols. 8vo. cloth. Price \$12.

It speaks favorably, we think, for the intelligence and sound national feeling of the people of this country, that Messrs. Little, Brown & Co. have been called upon to issue the sixth edition of Mr. Webster's Works. We have been struck with the justice of the opinion expressed by a distinguished clergyman of Philadelphia, in a discourse on the character of Mr. Webster, that "the best thing we can do for training our young men is to place in their hands the works of this great statesman;" and also of his remark upon the influence of that recommendation, "I feel that I have rendered every family a useful service, which may have been induced, through my recommendation, to give it a place among their household books." From a general conviction of the truth here expressed, in addition to the interest which every intelligent reader who once enters upon the perusal of Mr. Webster's speeches or writings, either from the importance of the subjects treated, the soundness and force of the views expressed, or from the charm of the style and manner of discussion, we have no doubt that these works will attain a much wider circulation and a far more general perusal, than those of any other American author. The excellent manner in which the work is published, and the reasonableness of the price, recommends it to a general circulation.

We learn that all idea has been entertained, to some extent, that the edition above referred to, edited by Mr. Everett, may be hereafter superseded by another and more complete edition. This is a mistake. This edition was compiled and edited with great care during the lifetime of Mr. Webster, with all the assistance which he could afford for rendering it complete, and no new edition can supersede it. Should there be a further publication of correspondence or miscellanies, it will be in the form of an addition which will in no degre

impair the value of the present edition, bu would tend to increase its interest.

In confirmation of this fact we are authorized to publish the following letter from Mr. Fletcher Webster, one of the executors of the late Mr.

Webster, one of the executors of the late Mr. Webster:

"Bosyon, January 10, 1853.

"Mesons. Little, Brown & Co.—Gentlemen: I have been informed that frequent inquiries are made of you as to the completeness of your edition of Mr. Webster's works.

"The present volumes, edited by Mr. Everett and published by you, contain every thing, up to March, 1852, which was intended to be included in his entire published works.

"It is probable that one or two volumes of correspondence, may bereafter be collected and published in the same style with your six volumes. This cannot be considered as definitively decided upon; but it is certain that no publication will be made which will render your edition incomplete, or in any way diminish its value.
